FEMORS MASS FATALITY

WORKSHOP

Course Objectives:

This course provides local and state response personnel with awareness level training on the state and federal mass fatality management program. A detailed presentation will be made covering the personnel and equipment caches. Additionally, students will understand the following processes as it relates to mass fatality: Call centers, Ante-mortem Data, Post-mortem Data, Presumptive Identifications, and confirmation of ID process.

The FEMORS mission is to assist and support the local District Medical Examiners Office, Florida Department of Law Enforcement and other responding agencies, in the event of a mass fatality incident as directed by the Florida Department of Health.
