Course Description:

Learn about and use the most common Incident Command System (ICS) forms. The course will prepare you to work with the ICS Forms used in the Incident Command Planning process to assist in the development of an Incident Action Plan (IAP).

You will be introduced to the forms and will practice how to develop and write effective objectives to manage an expanding all-hazards incident. The course will allow you to learn and experience the benefits of using the forms in responding to emergencies or managing planned events.

Course Description:

- The 15 most common ICS forms
- Forms used in the development of an Incident Action Plan (IAP)
- Developing SMART objectives

Required Pre-requisites:

IS-100, IS-200, IS-700, IS-800

*** There is no registration fee for this course ***
